ARCHERY

2018

2018

We at APA are proud of our products and service. Our bows are renowned for functionality, performance, style and innovation. APA bows have gained international acclaim incorporating smooth draw cycles, virtually zero hand shock, accuracy and shootability. After great lengths, we've insured our bows are engineered to be user friendly and easy to maintain. We would like to take this opportunity to thank you, our loyal archers, for your support and feedback. We look forward to serving you and any new archers with quality, expertise and the best in archery.

KING **TF2** COBRA

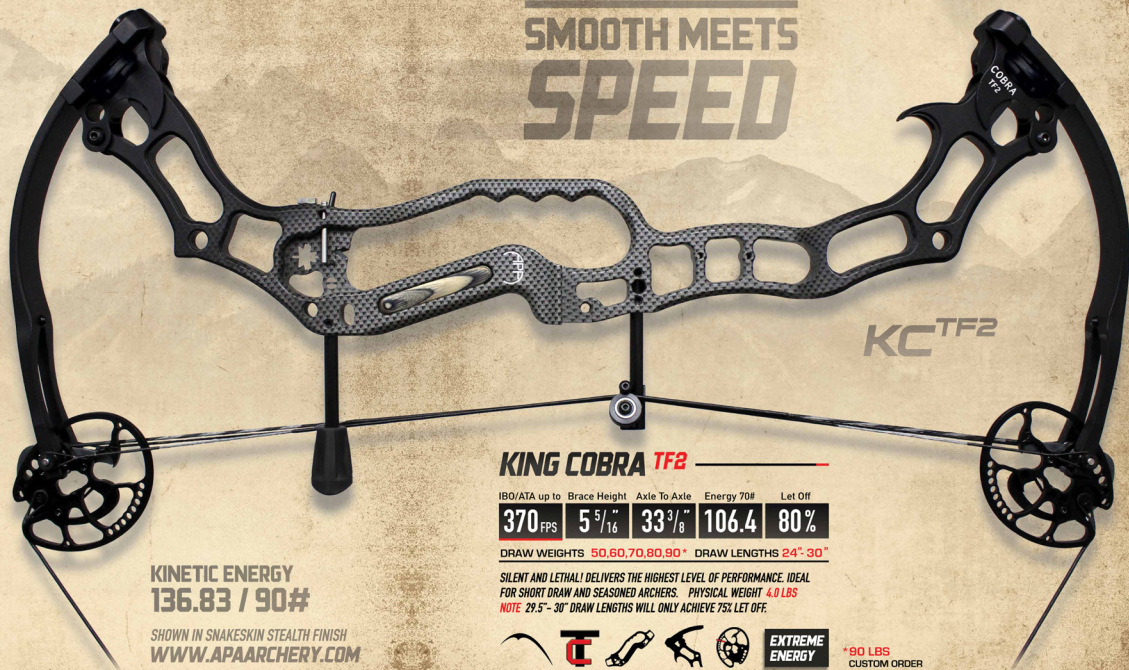

Now boasting a bigger brace height and 80% let off, the King Cobra TF2 is the smoothest shooting Cobra to date. Ready to strike with extreme levels of kinetic energy, generating industry leading speeds up to 370 fps.

MORE THAN JUST A BOW

APA TECHNOLOGY

Our passion for archery is our motivation to engineer industry leading technology and performance. Designed with functionality, APA bows are renowned for practical use in the field. This, along with our unique design, shootability, accuracy and world leading speeds, has created a new standard for compound bows. We encourage you to shoot an APA and see why we are NOT the same.

APA FEATURES

- 1 | REAR STABILIZER MOUNT - Allows archers to properly balance their bow.
- 2 | DIRECT MOUNT SLING - Promotes safety and ease of use.
- 3 | STRING DAMPENER - Reduces string vibration.
- 4 | THIN GRIP - Slender torque-resistant grip.
- 5 | CARBON ROLLER GUIDE - Minimizes string and cable friction.
- 6 | SOFT TOUCH ARMOUR - Minimizes contact noise and is warmer to the touch.
- 7 | EZ TUNE MODULES - High performance dual cam modules are easy to tune for optimum speed and arrow flight.

It's the little details that help achieve perfection.

WE ARE **NOT** THE SAME.

ACCESSORIES

WASP OPTIMIZER LITE OL-5519

The silky smooth elevation arm pairs with the industry's most accurate sight tapes to deliver unmatched performance to hunters and 3D shooters alike. Simply sight in at 20 and 60 yards and you're ready to shoot from 20 to 80 yards in 5 yard increments. Tool free adjustments, fully protected fiber optics and solid construction make it the toughest, most dependable single pin adjustable sight available today.

GWS AR-19

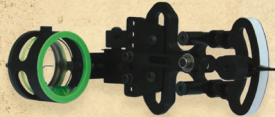

- Super tough .019" green fiber optic protected in a stainless steel pin tube
- Single pin adjustable sight provides pin point accuracy
- Precisely machined from aircraft grade aluminum
- Tool-less, micro adjust windage
- Teflon filled bushings

TRUGLO CARBON HYBRID

- Lightweight carbon composite and aluminum construction
- Reversible bracket for increased vertical adjustment range
- Adjustable for both left and right handed shooters
- Extra long fibers for maximum brightness
- Extra long bracket increases sight radius

TRUGLO CARBON XS

- Lightweight carbon composite construction, weighs less than 3.5 oz
- TRU TOUCH Soft-Feel Technical Coating / TRU FLO Fiber Design
- Reversible bracket for greater vertical adjustability
- Adjustable for both left and right handed shooters
- Extra long, fully protected fibers

"I have been bowhunting for over 35 years and have often featured bowhunting feral boars in Australia for my Wildlife Man films. I can honestly say that I have never shot a finer shooting, more accurate bow than the APA Mamba. So smooth, so fast and so easy to tune."

- David Ireland
(The Wildlife Man)

APA in Deutschland

Bereits seit 2005 kennen wir die innovativen Compoundbögen der kanadischen Fa. APA INNOVATIONS. Wurde das erste Exemplar im Bekanntenkreis noch gebraucht erworben, haben wir schnell den Kontakt nach Kanada gefunden und dort weitere Bögen direkt vom Hersteller gekauft. Seit 2009 sind wir der offizielle Lieferant und Ansprechpartner für Deutschland.
