We at APA are proud of our products and services. Our bows and accessories are known for functionality, performance, style and innovation. APA bows have gained international acclaim to be the most field ready bows within the archery industry. Known to be fast, smooth, quiet, shock free, reliable and accurate. We have developed and incorporated exclusive features not found on any other brand of bow. Making our product unique, representing our slogan "we are NOT the same". After great lengths, we've insured our bows are engineered to be user friendly and easy to maintain. We would like to take this opportunity to thank our loyal archers, for their support and feedback. We look forward to serving you with quality products, expertise, and the best customer service in the archery industry.

MORE THAN JUST A BOW

APA TECHNOLOGY

Fueled by passion for archery, it has led us to engineer industry leading technology and performance. Our Unique designs, exclusive features and functionality are renowned for the most practical use in the field. With Industry leading speeds, accuracy, and shoot ability, It is time to find out why "We Are NOT The Same".

CAMERA MOUNT

Capture your hunting experience from a first person view. Available on all 2021 bows, APA Camera Kit required.

ROTATING DRAW STOP

APA's Rotating Draw Stop enables a rock-solid back wall at any draw length or draw weight, while still providing the highest level of performance. A true game changer.

MASS TRANSFER MODULE

APA's compact and innovative string stop mounted stabilizer / dampener is engineered to control the front to back, side to side balance of your bow, minimizing hand torque. It maintains a sleek profile for all scenarios. Quick easy one screw adjustment.

APA TWIN FLEX 2 LIMBS

Until now traditional solid limbs stored energy only in the solid portion, leaving the forked end ridged. APA's TF2 limbs are engineered to allow the forked section to flex, distributing the load amongst two separate working areas, enabling the storage of more energy.

APA RISER FANG

APA's signature fang enables you to hang your bow directly onto any branch or limb without any additional equipment.

BLACK MAMBA RISER

INSPIRATION

The inspiration for APA's Black Mamba Riser was derived from the Black Mamba snake and it's coffin -shaped head. The design for this riser allows for better weight distribution and balance of the bow, providing a lighter, more rigid structure for a superior level of performance.

RISER UPGRADES AND FEATURES

- The Black Mamba Riser is now equipped with a larger fang allowing it to hang on a larger branch in the field.
- Dual position sight mounts to accommodate more sight options.
  Not Available on all Models
- The Black Mamba Riser now has a Top position MTM mount, allowing the MTM to orbit around a short carbon rod to achieve the perfect balance and reduce vibration.
- Dual burger-button holes allowing you to securely bolt your arrow rest on your bow.
- Interchangeable grip allowing different wrist angle positions.
  Not Available on all Models

SHOWN IN BM35/38 RISER

- Machined groove in front of grip, serves as a reference point for your fingers, allowing consistent bow hand positioning.
  Not Available on all Models
- Our weight distribution system (WDS) located at the top and bottom of the riser accommodates disc weights to achieve the ultimate balance for a rock solid hold on the target.

Visit www.apaarchery.com for videos further describing the new Black Mamba Riser.

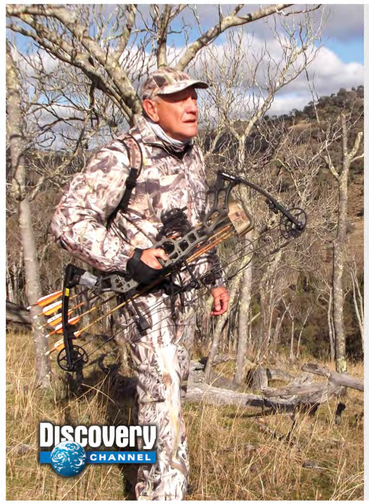
SOFT TOUCH



"I have been bowhunting for over 35 years and have often featured bowhunting feral boars in Australia for my Wildlife Man films. I can honestly say that I have never shot a finer shooting, more accurate bow than the APA Mamba. So smooth, so fast and so easy to tune."

- David Ireland
(The Wildlife Man)
